

PROMAC automatic toast bread line is designed for continuous and consistent toast bread production configured with a unique advanced moulder which is equipped with a cutting- twisting automatic loading station. The line can be adapted to already existing and/or new continuous lines with tunnel ovens or with independent ovens. This powerful industrial line is made of high-quality materials, fully stainless steel, heavy-duty construction and excellent finishing, that ensures perfect dough results and in the end excellent baking results.

Depending on the needs of the customer, the line has two different capacities up to 2400 pcs/h with a weight range between 4 and 44 ounces or 3600 pcs/h with a weight range between 3.5 and 22 ounces, the customer has the possibility to choose from 2 different dividers.
